

LYNX REVIVAL GROUP ( L.R.G.2. Disk )

To all my Lynx colleagues, this is a short circular to inform you of the release date of the second L.R.G. Disk - based magazine.

The release date will be : MARCH 25th, 1989.

CONTRIBUTIONS should reach me by : MARCH 11th, 1989.

Since the release of L.R.G.1. I have had a few modest murmors of approval but considering the lack of quality material on the disk due to the fact that it was basically a three contributions compilation of bits and pieces, I did the best I could. Since then, a few more people seem to be interested and I look forward to what you've got to say and contribute.

I think I should say at this point that I have been with the LYNX quite a long time now and I am well aware of all the silly little squabbles between various groups and individuals. But believe me, the LYNX machines are well and truly buried as far as any true commercial support goes so what I am hoping to achieve is to unite all LYNX users into the Special Interest Group we should be. We should appreciate each others efforts and not dissmis them out of hand, which is why I am asking you all to bury your grudqes ( if you have any ) and join me in spreading the word round and promoting the LYNX in a positive way.

Going back to the content of the L.R.G.1 disk, it did, I have to admit, look like a 128K users paradise disk as only one contribution was for the 96K LYNX. I should therefore warn you that it may take a couple of issues before we standardise on a few formats such as text compatibility between 96K LYNX and 128K LYNX, graphics and programs.

Lastly, I hope I receive a good, positive response from you, so that this magazine might become a regular circular within the LYNX body of users.

Yours Sincerely,

JOHN KOUSHAPPAS, ( Compiler L.R.G )

P.S. Don't forget to send covering postage stamps for the return of your disk; I'm not made of money !!!!
